

HEBOCLIP clamp assembly with strain relief

PRODUCT DESCRIPTION

The HEBOCLIP clamp assembly for direct mounting serves as a universal carrier for up to 12 shield clamps with a clamp diameter of 1.5 mm to 18 mm.

The clamp assembly can be shortened to the required amount by breaking unwanted clips off at the pre-determined breaking points. It is then attached using screws.

ADVANTAGES

- // connects up to 12 shield clamps per clamp assembly
- // space-saving assembly on the mounting plate
- // Universal carrier for shield clamps with a clamping range of 1.5 mm to 18 mm

// breaking points allow an adaptation to the required number of cables

// fewer stock items needed

// very compact design

// Strain relief with cable tie

TECHNICAL DATA

Material: galvanised spring steel

ACCESSORIES

// Shield clamp

// Shield clamp Multi

// HEBOSET set of assorted fittings

HEBOCLIP CLAMP ASSEMBLY WITH STRAIN RELIEF
